The Crow's Nest Pass Coal Company, Limited,
Ferne, B.C.**

We Certify that we have audited the books and accounts of your Company for the year ended December 31st., 1926, and that the appended Balance Sheet is, in our opinion, so drawn as to exhibit a true and correct view of the Company's position as at that date, and as shown by the books.

THE PRESIDENT'S ADDRESS

I beg to move the adoption of the report, which is not very satisfactory in some respects, caused by the shrinkage of markets, through the Great Northern Railroad resorting to the use of Oil Fuel, and the Calgary District Consumers turning to the use of natural gas instead of coal.

The agreement made in 1924 continues until April 1st, 1928, under which the employees of the Company have continued to work during 1926, in good faith, hence by this mutual consideration for the terms of the agreement, both by the employees and the Company, the year of 1926 passed on without notable troubles of any kind interrupting operations, for which, I, at this time desire to express my appreciation to the employees of the Company.

Coal Creek Mines during the year worked only 204 days.

Michel Mines worked235 days.

Total production of coal resulting from the
above working time, single shift operations 817,431 tons.

Total Coke Production, both plants104,660 tons.

In connection with the above production: The following classes and quantities of development work have been done at the different Mines during the year:

Coal Creek Mines, narrow work development ..25,780 feet.

Michel Mines, narrow work development19,560 feet.

Total narrow work development all Mines45,340 feet.

The preceding development measurement figures are considerably above, or higher than maintenance development requires.

For the purpose of more explicitly explaining the physical conditions of each Mine, we are placing at your disposal, copies of statistical records that show all renewal work done to maintain old Mines, and all new extensions in Mines that are operating.

I beg to move the adoption of the Report.

Mr. Gilman seconded the motion.
